

Model No: SMX-55S

Automatic Washer Extractor

- Simple, easy-to-use operating system
- Good adaptability, up to 15 programmable sets can be added, additional functions(wait, soak, final spin-dry adjustment, start settings, quick leapfrog);
- Easy to load and unload clothes
- Large door design allows easy loading and unloading of clothes, arc angle designed to avoid accidental injury, more humanity and security;
- Suspension system
- Brand-new dynamic suspension system, the focus usually occurs in the center of balance, power will be evenly distributed to minimize vibration, so that dehydration stability and reduced wear;
- Speed appropriate, high efficient
- Single inverter drive to provide the necessary speed, high speed spin speed 925 rpm, generate real effort 350G, thus reducing drying time and increase washing efficiency

Technical Parameters

Technical parameter

Model No	Capacity (kg/lbs)	Drum size (ΦxL)mm	Voltage (V/Hz)	Motor Power (kw)	Wash speed (rpm)	Spin speed (rpm)	Weight (kg)	Dimension(mm) (WxDxH)
SMX-55S	25/55	741 x 530	380/50	2.2	40	925	730	1000 x 1176 x 1450

- 1.Manufacturer reserve the right to change the installation information without notice.
2. Graphic size range of plus or minus 10mm.
- 3.Please read the connection information from chart and list.
4. Customised different area power supply.
- 5.For more information, please contact with manufacturer.

- Aluminum alloy pulley

- Big opening door, easy to put /uninstall colth

- Optional accessory,LCD Digital Dashboard
